## SUMMARY

Full stack web developer leveraging a fine arts background to build a cleaner and more intuitive user experience on the web. Currently undergoing a bootcamp program to earn a certificate in full stack development from the University of New Hampshire, developing skills in Javascript, CSS, MERN stack, as well as responsive web design. Well known as a communicative team player passionate about continuous learning and application development.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, Javascript

**Technologies:** Bootstrap, Bulma, jQuery, Node.JS, Sequelize, Passport

## PROJECTS

### STRETCH N STRENGTHEN

[Code](#)

[Deployed Application](#)

An application that shows users different exercises based on user selected body parts.

Users are able to create and update 'routines' and follow other users.

- Handled authenticating users via Google and OAuth Passport strategies
- Created models for use in Sequelize database
- Assisted with backend logic routes
- Git/Github, Passport, Google, OAuth, Axios, Postman, Node, Sequelize, Heroku

### Easy Recipeazy

[Code](#)

[Deployed Application](#)

An application that selects and displays a dinner and drink recipe based on a user's input. If the user does not specify any ingredients the app will generate recipes completely randomly.

- Ensured application was mobile-responsive, and met UI/UX design standards.
- Managed main project repository, and ensured 'Git Workflow' standards
- Assisted in debugging application
- Git/GitHub, Bulma CSS framework, jQuery, TheMealDB, TheCocktailDB, Postman, Owl
